Honorable Minister Mboweni

Please find the attached for your urgent attention. I am, no, I was employed by the Nelson Mandela Bay Municipality for 9 years, am the main source of information re the IPTS SCANDAL but have now become the subject of a successful conspiracy in order to protect the true culprits. The one true culprit even appointed the presiding officer, whilst implicated in fraud and corruption.

As Minister of Finance I deem your outspokenness against corruption as commendable. It is unfortunate that Integrity has to come at a cost of politics, looting and lack of accountability and as a consequence destroying a career of 32 years and ones livelihood.

I seek your personal intervention please.

I am shell shocked with the outcome and sanction of this matter, but Honorable Minister I will fight corruption irrespective which political party. Whilst the ANC greatly benefitted from the loot, the DA vide Athol Trollip is at the centre of having conspired and protected a senior official who even admitted to him that he was under political pressure. I have all the evidence.

Kind regards

WERNER WIEHART
